

PIKES PEAK THERAPEUTIC RIDING CENTER

*Utilizing the unique and therapeutic attributes of the horse,
our mission is to serve those with diverse needs, empower change, foster resilience,
and nurture whole health through sustainable and innovative programs.*

2016 ANNUAL REPORT

Dear Friends,

In 1981, Acts 19:11, now known as Pikes Peak Therapeutic Riding Center, was founded by a woman who understood that kids with disabilities could benefit both physically and emotionally from horseback riding. She conducted the first PPTRC therapeutic riding lessons in her back yard. Today, PPTRC is the oldest and largest therapeutic riding center in southern Colorado.

Each year, PPTRC staff and volunteers help more than 600 people seeking change, independence, and whole health. This year's annual report focuses on the clients – however it is defined by you, our supporter and partner. Through our efforts to implement PPTRC's mission you will find that the PPTRC family worked tirelessly to meet our goals. From streamlining our scheduling to building new partnerships, PPTRC made strides toward giving people with unique needs a place to learn, grow, and achieve their own goals.

Thank you for making 2016 another remarkable year for PPTRC. This year marked 35 years of service in the Pikes Peak Region. As we continue on our path, PPTRC looks to a bright future of being THE industry leader in Equine Assisted Activities and Therapies.

It is because of you that we are able to help people take the lead, both in the arena and in life.

Sincerely,

Shannon Mitchell
Executive Director

"Quinn has hypotonia and I had never seen him sit up straight. Once on the horse, there he is sitting tall in the saddle. He is on top of the world. The confidence radiates from his smile and posture."
